Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1751

This application is a 371 of PCT/JP03/07483 (filed 06/12/03). The preliminary amendment filed 01/25/05 is entered. Claims 1-3, 6-8, 11 and 15 are currently pending.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-3, 6-8, 11 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 02/051769 in view of JP 2000-247739.

Note that Suzuki (U.S. 6,843,975) is the U.S. equivalent of WO 02/051769.

Art Unit: 1751

Also, note that full English language translation of JP 2000-247739 has been ordered and will be provided to applicant as soon as possible.

As stated in the written opinion (PCT 409), WO '769 discloses SrRuO₃ sintered compacts and sputtering targets which have a relative density of 95% or more and a specific resistance of 260 micro-ohm (see Abstract; examples 1-4). The reference differs from the instant claims in failing to recite the presence of 0.5-1.2 mol% of Bi₂O₃.

JP '739 discloses the feature of adding between 0.001-0.500 mol Bi₂O₃ in order to increase the density when producing a SrRuO₃ sputtering target (Abstract).

Accordingly, it would have been obvious to one of ordinary skill in the art to add Bi₂O₃ to the SrRuO₃ sintered compacts (within the claimed range) in order to further increase the density thereof.

Applicant's remarks regarding this rejection (written opinion) are noted.

Specifically, applicant argues that JP '739 does not suggest the addition of Bi₂O₃ within the claimed amounts.

The examiner submits that the ranges (of Bi₂O₃ addition) disclosed in JP '739 overlap with the ranges instantly claimed. Both the prior art and the instant claims encompass 0.05 mol%.

Art Unit: 1751

In the case where the claimed ranges "overlap or lie inside ranges disclosed by the prior art" a prima facie case of obviousness exists. In re Wertheim, 541 F.2d 257, 191 USPQ 90 (CCPA 1976); In re Woodruff, 919 F.2d 1575, 16 USPQ2d 1934 (Fed. Cir. 1990).

In view of the foregoing, the above claims have failed to patentably distinguish over the applied art.

The remaining references listed on forms 892 and 1449 have been reviewed by the examiner and are considered to be cumulative to or less material than the prior art references relied upon in the rejection above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Kopec whose telephone number is (571) 272-1319. The examiner can normally be reached on Monday - Friday from 9:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Douglas McGinty can be reached on (571) 272-1029. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
